Summary

Motivated Frontend Developer skilled in React, JavaScript, and responsive design. Strong problem-solving abilities with experience building clean, user-friendly interfaces through academic and personal projects.

Technical Skills

Front-end Development: HTML, CSS, JavaScript, React

Backend & Database: PHP, MySQL, Laravel

Programming Languages: Python, Java, C

Design & Tools: Git, VS Code, Figma, GitHub, Canva, Excel, Word, PowerPoint, Android Studio

Soft skills

Strong communication, teamwork, adaptability, effective time management, and quick to learn new technologies.

Projects & Experience

Internship

Codevocado | Remote | January – march

- Developing web applications using HTML, CSS, JavaScript, PHP, and SQL
- Building responsive UI, handling backend logic, and fixing bugs
- Using Git/GitHub for version control and team collaboration

College Erp-System

Developed a Local ERP system for managing students and departments. Built with React featuring login authentication, dashboards, and CRUD operations with MySQL database integration.

Technologies: React, Bootstrap, MySQL

Learning Management System (LMS) with Online Proctoring

A web-based LMS for administrators, faculty, and students to manage courses, conduct online exams, and monitor them in real time using camera and screen tracking. Includes role-based authentication, violation detection, and secure exam monitoring.

Technologies: React, Next.js, Node.js, MySQL

Portfolio Website

Designed and built my own portfolio from scratch, featuring smooth animations and a modern, minimalist interface that showcases my work and skills. <https://roshanportfolio5.netlify.app/>

Technologies: React, HTML, CSS, JavaScript

Education

Bachelor of Computer Applications (2023- 2026) – SRM University, Sikkim
